Professional Summary

Highly skilled Software Engineer with over 4 years of experience specializing in Python backend development. Proven expertise in building clean, high-performance REST APIs with FastAPI, managing complex database migrations with SQLAlchemy, and maintaining source control through Git.

Technical Skills

Languages & Frameworks: Python, FastAPI, SQL, HTML, CSS, JavaScript

Databases & Tools: SQLite, PostgreSQL, SQLAlchemy, Git, Docker, REST APIs

Professional Experience

Senior Backend Engineer | TechCorp Solutions (2024 - Present)

- Lead the design and implementation of microservices using FastAPI, reducing response latency by 25%.
- Designed relational schemas and managed data models with SQLAlchemy for high-traffic applications.
- Maintained clean CI/CD pipelines and version controls using Git.

Python Developer | WebStart Inc (2022 - 2024)

- Built and maintained scalable APIs for client-facing web applications using Python and FastAPI.
- Used SQLite for light local transactional database configurations and fast prototyping.
- Collaborated with frontend developers to integrate APIs cleanly.

Education

Bachelor of Science in Computer Science | University of California, Berkeley
